Mike,

Given the extent of the comments received from OGC on the guidance document I believe it would prudent for us to have a discussion. As some of their inquiries can not be addressed by me. I will do what I can. However, my initial concern are the questions upfront on retitling and identifying an author, as well as, the SLAs role in drafting the document. See attached document for the full suite of OGC comments.

Please let me know how you would like to proceed.

Regards,
Tawanda

Importance: High

Good afternoon Erin and Scott,

Erin based on our brief encounter last week during your office hours, it was my understanding that you were wrapping up your comments on the subject document to then forward to Scott for consideration and commenting. I recognize Scott is out today but any update you have to offer would be greatly appreciated. As the target for releasing the document for comment is the month.

Thanks,
Tawanda

Tawanda,

I believe Scott Garrison is the lead OGC attorney on this and I've forward it to him. Unfortunately he is out Fridays and Mondays so I haven't been able to confirm. I will take a look at it also, but I wanted to let you know about the delay due to Scott's schedule.

Erin

Importance: High

Good afternoon Erin,

As you are aware, we have been working to revise the 1996 24c guidance document to align more with our current policies and procedures. That said, we have reached the point whereby we would like OGC's input. While we want your overall feedback, there are a few places that are highlighted specifically for OGC's

contribution. Please feel free to reach out to me directly with any immediate questions or concerns. Last but not least, we appreciate your immediate attention to this matter.

Thanks,
Tawanda
